

MID-POINT ASSESSMENT OVERVIEW

What is the Mid-Point Assessment about?

The purpose of the Mid-Point Assessment is to

- **EVALUATE** the progress of each Minister in Development in various aspects of preparation for ministry and provide direction for the future;
- **EQUIP** each participant for effective ministry now and in the future;
- **ENCOURAGE** each participant in the midst of the opportunities and challenges of responding to the call of God.

This weekend is a critical component to the whole process of your preparation for ministry. It is a time of learning about yourself through a series of assessments related to areas that are critical to a life of fruitful service to God.

There will be time for reflection, for interaction with the Assessment Staff, for fellowship with others on the journey of preparation, and for worship and inspiration as we take time to hear the heart of God regarding the ministry of the gospel of Jesus Christ.
